Hausmann Rech Unit Trust Scheme

Approval of financial statements

The directors of the CIS Manager are responsible for the preparation, integrity and fair presentation of the financial statements of Hausmann Rech Unit Trust Scheme. The financial statements, presented on pages 13 to 73 have been prepared in accordance with International Financial Reporting Standards and the Trust Deeds and include amounts based on judgments and estimates made by management.

The directors of the CIS Manager consider that, in preparing the financial statements, they have used the most appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates, and that all International Financial Reporting Standards, which they consider to be applicable, have been followed. The directors of the CIS Manager are satisfied that the information contained in the financial statements fairly presents the results of operations for the year and the financial position of Hausmann Rech Unit Trust Scheme at the year end.

The directors of the CIS Manager are responsible for ensuring that accounting records are kept. The accounting records should disclose, with reasonable accuracy, the financial position of the Unit Trust Scheme to enable the directors of the CIS Manager to ensure that the financial statements comply with the relevant legislation. The trustee shall satisfy itself that every income statement, statement of financial position or other prescribed return, prepared by the CIS Manager in terms of the Laws, fairly presents the assets and liabilities as well as the income and distribution of income of every unit portfolio of the Trust, administered by the CIS Manager.

The Unit Trust Scheme operates in a well-established control environment, which is regularly reviewed. This incorporates risk management and control procedures, which are designed to provide reasonable, but not absolute, assurance that assets are safeguarded and the risks, facing the business, are controlled.

The financial statements of Hausmann Rech Unit Trust Scheme for the year ended 31 December 2021, set out on pages 13 to 73, were approved and authorised for issue by the CIS Manager on 26 April 2022 and were signed on its behalf by the directors on 11 May 2022.

**INDEPENDENT AUDITORS' REPORT
TO THE UNIT HOLDERS OF HAUSSMANN RECH UNIT TRUST SCHEME**

This report is made solely to the unit holders of the Scheme as a body. Our audit work has been undertaken so that we might state to the unit holders of the Scheme those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Scheme and the unit holders of the Scheme as a body, for our audit work, for this report, or for the opinion we have formed.

Report on the Audit of the Financial Statements**Opinion**

We have audited the financial statements of the following unit portfolios of Haussmann Rech Unit Trust Scheme (the Scheme) for the year ended 31 December 2021:

1. Haussmann Rech Global Equity Multi Strategy Fund
2. Haussmann Rech Global Fixed Income Fund
3. Haussmann Rech Global Managed Fund

These financial statements set out on pages 13 to 73 comprise the statements of financial position as at 31 December 2021, and the statements of profit or loss and other comprehensive income, statements of changes in net assets attributable to unit holders and statements of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of, in all material respects, the financial position of the Scheme as at 31 December 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the financial statements section of our report. We are independent of the Scheme in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Mauritius, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors of the Scheme's manager are responsible for the other information. The other information comprises Approval of financial statements, Trustee's report and Unit trust funds report. Other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**INDEPENDENT AUDITORS' REPORT (CONT'D)
TO THE UNIT HOLDERS OF HAUSSMANN RECH UNIT TRUST SCHEME****Other Information (Cont'd)**

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this Auditor's Report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors of the Scheme Manager for the Financial Statements

The directors of the Scheme Manager are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. They are also responsible for such internal control as they determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors of the Scheme Manager are responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Scheme Manager either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control.

**INDEPENDENT AUDITORS' REPORT (CONT'D)
TO THE UNIT HOLDERS OF HAUSSMANN RECH UNIT TRUST SCHEME****Auditor's Responsibilities for the Audit of the Financial Statements (Cont'd)**

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Scheme's Manager.
- Conclude on the appropriateness of the use of the Scheme Manager's directors of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors of the Scheme's Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

TRUSTEE REPORT

UNDER SECTION 11.4.6 OF TRUST DEED

We, as trustee of Haussman Rech Unit Trust Scheme, certify that based on records and information made available to us by the Manager, for the year ended 31 December 2021:

- a) the Trust has been administered in accordance with the limitations imposed by the Laws on the Manager's investment and borrowing powers;
- b) the Trust has been administered in accordance with the provisions of the laws and the Trust Deed with the exception that the Trustee does not control the bank account;
- c) there has been a legal separation of assets held under custody and legal entitlement of investors to the assets that has been assured and
- d) appropriate internal control systems have been maintained and records clearly identify the nature, value and ownership of all assets under management.

The unit portfolios

The Haussmann Rech Unit Trust Scheme consists of the following five unit portfolios, of which Haussmann Rech Global Equity Opportunities Fund was wound up during the year.

Two unit portfolios became operational on 01 June 2015 and Haussman Rech Global Equity Multi Strategy Fund became operational on 30 August 2018.

Hausmann Rech Unit Trust Scheme

Unit Trust Funds report

The unit portfolios (continued)

The Scheme has been converted to an Expert Fund under the Collective Investment Scheme as from 15 July 2020.

Following the ongoing spread of the virus, the world and its business environment are still struggling with meaningful direct and indirect effects of the pandemic. As at the date of this report, it is not possible to reliably estimate the financial effect (if any) of the virus on the Fund's operations. The Board of Directors of the CIS Manager will continue to monitor the impact COVID-19 has on them and reflect the consequences as appropriate in the accounting and reporting. Business will continue and in the medium term, we anticipate business returning to normal.

Hausmann Rech Global Equity Opportunities Fund

Date of establishment: 04 December 2012

The Fund was wound up during the year.

A final management accounts were submitted to the Financial Services Commission upon completion of the winding up.

Hausmann Rech Global Equity Multi Strategy Fund (HRMS)

Date of establishment: 04 December 2012

Fund objective : 'Is to seek to secure, for investors, an overall growth of capital, as its primary objective, and income, as a secondary objective.'

Investment policy: The Fund's policy is to acquire investments comprising of a mix of securities, as well as liquid assets, all to be acquired at a fair market value. Such securities will be held both directly and indirectly by means of other similar investment vehicles that, in turn, invest in a mix of securities and liquid assets.

The unit portfolio may invest all of its assets in another unit portfolio of the Trust or in a single collective investment scheme where it is authorised as a feeder unit portfolio / collective investment scheme, provided that the Commission is satisfied that the feeder unit portfolio / collective investment scheme shall meet such terms and conditions as the Commission may deem fit.

Fees: A maximum fee of 2% p.a. is permissible in terms of Clause 8.2 of the Supplemental Trust Deed. Initial fees, not exceeding 5 %, are permissible in terms of Clause 8.1 of the supplemental Trust Deed.

As from 21 May 2018, the Fund changed its name from Hausmann Rech Global Equity Direct Investment Fund to Hausmann Rech Global Equity Multi Strategy Fund.

Hausmann Rech Global Fixed Income Fund (HRGF)

Date of establishment: 04 December 2012

Fund objective: 'Is to provide a total return to investors, through a combination of capital growth and income earned that is commensurate with risks.'

Investment policy: The Fund's policy is to invest in a globally diversified portfolio of fixed income securities. This may be achieved by investing directly in the securities or indirectly in other funds.

Fees: A maximum fee of 2% p.a. is permissible in terms of Clause 8.2 of the Supplemental Trust Deed. Initial fees, not exceeding 5 %, are permissible in terms of Clause 8.1 of the supplemental Trust Deed.

Hausmann Rech Unit Trust Scheme

Unit Trust Funds report

The unit portfolios (continued)

Hausmann Rech Global Managed Fund (HRGM)

Date of establishment: 04 December 2012

Fund objective: 'Is to seek long-term growth of capital consistent with moderate investment risk and a reasonable level of current income.'

Investment policy: The Fund's policy is to invest in a diversified range of international securities, directly held by the unit portfolio, or indirectly by means of one or more collective investment vehicles.

Fees: A maximum fee of 2% p.a. is permissible in terms of Clause 8.2 of the supplemental Trust Deed. Initial fees, not exceeding 5 %, are permissible in terms of Clause 8.1 of the Supplemental Trust Deed.

Hausmann Rech Thrive Africa Fund (MTAF formerly known as "Hausmann Rech Euro Fund")

Date of establishment: 24 June 2014

Fund objective: 'Is to provide a total return to investors through a combination of capital growth plus income. "

Investment policy: The Fund's policy is to invest in a diversified portfolio of fixed income securities issued by entities domiciled in Sub-Saharan Africa. The unit portfolio will principally, but not necessarily exclusively, invest in infrastructure, clean energy, and financial inclusion in Sub-Saharan African countries to generate social and economic impact. It can also invest in a diversified range of international securities, directly held by the unit portfolio, or indirectly by means of one or more collective investment vehicles.

Fees: A maximum fee of 1% p.a. is permissible in terms of Clause 9.2 of the supplemental Trust Deed. Initial fees, not exceeding 5 %, are permissible in terms of Clause 9.1 of the Supplemental Trust Deed.

Performance charge

The CIS Manager shall be entitled to a performance charge of 10% on returns in excess of the benchmark, subject to a high water mark.

The Fund changed its name to Hausmann Rech Thrive Africa Fund following approval from Financial Services Commission on 08 December 2020.

The Fund has been dormant since inception until December 2021. The Fund aims to be operational in the first semester 2022.

Hausmann Rech Unit Trust Scheme

Unit Trust Funds report

1. Trustee

Ocorian Corporate Services (Mauritius) Limited resigned as trustee and Rogers Capital Fund Services Ltd has been appointed as trustee as from 20 July 2021.

The trustee has verified that, for the year ended 31 December 2021, the issue, sale, redemption and cancellation of units, the calculation of the price of the Scheme's units and the application of the Scheme's income have been carried out in accordance with the Trust Deed.

The trustee is further of the opinion that, for the year ended 31 December 2021, the Unit Trust Scheme has been managed in accordance with the limitations imposed on the investment and borrowing powers of the manager and the trustee by the Trust Deed.

The trustee is entitled to a fixed annual responsibility fee of USD 2 000, and any work undertaken as trustee will be charged on time spent at USD 150 per hour.

2. Management company

The management company of the Trust is African Alliance Mauritius Management Company Limited (the "CIS Manager") a company incorporated in Mauritius (registration number C080778 C1 / GBL).

The CIS Manager is entitled to an initial charge, management fees and performance fees as set in each Unit Portfolio Supplemental Deed and detailed as per table below:

	Initial fee	Management fee	Performance charge
HRMS	not exceeding 5%	Maximum 2 % p.a	Not applicable
HRGF	not exceeding 5%	Maximum 2 % p.a	Not applicable
HRGM	not exceeding 5%	Maximum 2 % p.a	Not applicable
HTAF	not exceeding 5%	Maximum 1 % p.a	10% on return in excess of benchmark, subject to a high water mark

The amount accrued on account of the CIS Manager's charge shall be paid to the CIS Manager from the income account as soon as practicable after the end of each calendar month.

3. Custodian

As from 01 June 2015, the Standard Chartered Bank (Mauritius) Limited agreed a flat fee of USD 3,000 per month for the Scheme.

As per Board's direction at the meeting held on 10 May 2018, no custodian fees (which are charged for the overall Scheme) should be allocated to Hausmann Rech Global Managed Fund to avoid duplication of fees, as this Fund is entirely investing in underlying funds within the Scheme.

4. Portfolio Managers

African Alliance Mauritius Management Company Limited, the management company, acted as portfolio manager to the Unit Trust Scheme during the entire year under review.

Hausmann Rech Unit Trust Scheme

Unit Trust Funds report

5. Review of activities

Main business and operations

The Unit Trust Scheme generated income (excluding net gain from financial assets at fair value through profit or loss and income equalisation) and incurred expenses during the year, as set out in the table below:

	Year ended		Year ended	
	31 December 2021		31 December 2020	
	<u>Income</u>	<u>Expense</u>	<u>Income</u>	<u>Expense</u>
	USD	USD	USD	USD

Haussmann Rech Unit Trust Scheme

Accounting Policies

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by International Accounting Standard Board (IASB), and interpretations issued by the International Financial Reporting Interpretation Committee (IFRIC).

The financial statements have been prepared on the historical cost basis, except for financial assets at fair value through profit or loss where otherwise stated.

The financial statements are presented in US Dollar which is the Scheme's functional currency. All values are rounded to the nearest US Dollar, except where otherwise indicated.

Summary of significant accounting policies

Except for the changes explained in Note 1.13, the Scheme has consistently applied the following accounting policies to all periods presented in these financials.

1.1 Significant accounting judgments, estimates and assumptions

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of the assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Judgments

In the process of applying the Scheme's accounting policies, the following judgments, having the most significant effect on the amounts recognised in the financial statements, have been made.

Going concern

The Scheme's management has made an assessment of the Scheme's ability to continue as a going concern and is satisfied that the Scheme has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Scheme's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

Estimates and assumptions

The Scheme did not apply any estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Scheme. Such changes will be reflected in those assumptions when they occur.

Fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Statement of financial position cannot be derived from active markets, their fair values are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. The estimates include considerations of liquidity and model inputs, such as credit risks (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Statement of financial position and the level where the instruments are disclosed in the fair value hierarchy.

Hausmann Rech Unit Trust Scheme

Accounting policies

1.2 Financial instruments

Initial recognition and measurement

Financial instruments are recognised initially when the Scheme becomes a party to the contractual provisions of the instruments.

The Scheme classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

Financial instruments are measured initially at fair value. On initial recognition, financial asset is classified as amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVPL). The classification is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

For financial instruments which are not at fair value through profit or loss, transaction costs are included in the initial measurement of the instrument.

Financial assets which are equity instruments:

- Mandatorily at fair value through profit or loss; or
- Designated as fair value through other comprehensive income. (This designation is not available to equity instruments which are held for trading or which are contingent consideration in a business combination.)

Financial assets which are debt instruments:

- Amortised cost. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is met by holding the instrument to collect contractual cash flows); or
- Designated at fair value through profit or loss. (This classification option can only be applied when it eliminates or significantly reduces an accounting mismatch).

Derivatives which are part of a hedging relationship:

- Mandatorily at fair value through profit or loss.

Financial assets at fair value through profit or loss:

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the entity designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (accounting mismatch) that would arise from measuring assets and liabilities or recognising the gains and losses on different basis.

Hausmann Rech Unit Trust Scheme

Accounting policies

1.2 Financial instruments (continued)

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial assets.

Financial liabilities:

- Amortised cost; or
- Mandatorily at fair value through profit or loss. (This applies to contingent consideration in a business combination or to liabilities which are held for trading); or
- Designated at fair value through profit or loss. (This classification option can be applied when it eliminates or significantly reduces an accounting mismatch; the liability forms part of a group of financial instruments managed on a fair value basis; or it forms part of a contract containing an embedded derivative and the entire contract is designated as at fair value through profit or loss.)

Impairment of financial assets

The Scheme recognises a loss allowance for expected credit losses on all financial assets. The amount of expected credit losses is updated at each reporting date.

Loss allowance for all receivables is determined as lifetime expected credit losses (simplified approach). Loss allowance for receivables is determined in the same manner as prescribed for all financial assets at amortised cost.

The Scheme measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL), which represents the expected credit losses that will result from all possible default events over the expected life of the receivable.

Measurement and recognition of expected credit losses

The Scheme makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

The customer base is widespread and does not show significantly different loss patterns for different customer segments. The loss allowance is calculated on a collective basis for all trade and other receivables in totality.

An impairment gain or loss is recognised in profit or loss with a corresponding adjustment to the carrying amount of trade and other receivables, through use of a loss allowance account. The impairment loss is included in other operating expenses in profit or loss as a movement in credit loss allowance.

Write off policy

The Scheme writes off a receivable when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Receivables written off may still be subject to enforcement activities under the Scheme recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Hausmann Rech Unit Trust Scheme

Accounting policies

1.2 Financial instruments (continued)

Trade and other receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. They are measured at amortised cost.

Bank overdraft and other financial liabilities

Bank overdrafts, borrowings and trade and other payables are initially measured at fair value and subsequently measured at amortised cost, using the effective interest method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Scheme's accounting policy for borrowing costs.

Other financial liabilities are measured initially at fair value and subsequently at amortised cost, using the effective interest method.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when :

- . the rights to receive cash flows from the asset have expired; and
- . the Scheme has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

(a) the Scheme has transferred substantially all the risks and rewards of the asset, or

(b) the Scheme had neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Hausmann Rech Unit Trust Scheme

Accounting policies

1.2 Financial instruments (continued)

When the Scheme has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the asset is recognised to the extent of the Scheme's continuing involvement in the asset. In that case, the Scheme also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Scheme has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Scheme could be required to repay.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired.

When the existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit and loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if :

- there is a currently enforceable legal right to offset the recognised amounts; and
- there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

1.3 Functional and presentation currency

The Scheme's functional currency is the US Dollar, which is the currency of the primary economic environment in which it operates. The Scheme's performance is evaluated and its liquidity is managed in US Dollar. Therefore, the US Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The Scheme's presentation currency is also the US Dollar.

1.4 Foreign currency

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on translation are recognised in profit or loss as net foreign exchange gain/(loss), except for those arising on financial instruments at fair value through profit or loss, which are recognised as a component of net gain from financial instruments at fair value through profit or loss.

1.5 Net gain/(loss) from the financial assets at fair value through profit or loss

Net gain/(loss) from financial asset at fair value through profit or loss includes all realised and unrealised fair value changes but excludes interest and dividend income.

1.6 Redeemable participating units

Redeemable participating units are redeemable at the unit holders' option and are classified as financial liabilities. The liabilities arising from the redeemable units are carried at the redemption amount, being the net asset value calculated in accordance with the Trust Deed.

The Scheme issues units at the net asset value of the existing units. The holder of participating units can redeem at any time during the year for cash equal to a proportionate unit of the Scheme's net asset value (calculated in accordance with redemption requirements). The Scheme's net asset value per unit is calculated by dividing the net assets attributable to unit holders (calculated in accordance with redemption requirements) by the number of units in issue.

Haussmann Rech Unit Trust Scheme

Accounting policies

1.7 Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Scheme in the management of short-term commitments, other than cash collateral provided in respect of derivatives and securities borrowing transactions.

1.8 Distributions to unit holders

In accordance with the Funds' trust deed, each unit portfolio fully distributes its distributable income to unit holders.

Proposed distributions to unit holders are recognised in profit or loss on the Fund's ex-date. The distribution expense is recognised in profit or loss as a finance cost.

Distributable income excludes capital gains arising from the disposal of investments and unrealised gains or losses on revaluation of investments.

1.9 Interest income

Interest income is recognised in the profit or loss for all interest-earning financial instruments using the effective interest method.

The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument (or, when appropriate, a shorter period) to the carrying amount of the financial instrument. When calculating the effective interest rate, the Scheme estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses. Interest received or receivable are recognised in profit or loss as interest income.

1.10 Dividend income

Dividend income is recognised in profit or loss on the date that the right to receive payment is established. For quoted equity securities this is usually the ex-dividend date. For unquoted securities, this is usually the date when the shareholders have approved the payment of a dividend.

Dividend income from equity securities designated as at fair value through profit or loss is recognised in the profit or loss as a separate line item.

1.11 Fees

Unless included in the effective interest calculation, fees are recognised on an accrual basis.

1.12 Income taxes

For the purpose of the Statement of cash flows, cash inflows from investments are presented net of withholding taxes, when applicable.

The Scheme is eligible to the grandfathering provision, until the income year ending 30 June 2024, as per the Finance Act 2021 and is not currently taxable in Mauritius.

Haussmann Rech Unit Trust Scheme

Accounting policies

1.13 Changes in accounting policies and disclosures

The Scheme has consistently applied the accounting policies as set out in Note 1.1 to 1.12 to all periods presented in these financial statements.

The audited financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs), on a basis consistent with the prior year except for the adoption of the following new or revised standards.

1.14 New and amended standards and interpretations

Amendments mandatory effective for the year ended 31 December 2021

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on/or after 1 January 2021. None of these have a material effect on the financial statements of the Scheme.

- Amendments to IFRS 9, IAS 39 and IFRS 7 - Interest Benchmark Reform
- Amendments to IFRS 16 - Covid - 19 Related Rent Concessions
- Editorial Corrections (various)

Amendments to IFRS 9, IAS 39 and IFRS 7 - Interest Benchmark Reform

The amendments clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform. The amendments have no significant impact on the financial statements.

Amendment to IFRS 16 - Covid-19 Related Rent Concessions

The changes in Covid -19 Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16) amend IFRS 16 to permit a lessee to apply the practical expedient regarding COVID-19 related rent concessions to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022 (rather than only payments originally due on or before 30 June 2021). The amendments have no significant impact on the financial statements.

Not yet mandatorily effective but early application allowed for the year ended 31 December 2021

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on 01 January 2022, and have not been applied in preparing the financial statements. Those which may be relevant to the Scheme are set out below. The Scheme does not plan to adopt these standards early. These will be adopted in the period that they become mandatory unless otherwise indicated:

- **Amendments to IAS 1 - Presentation of liabilities**

The amendments affect requirements in IAS 1 for the presentation of liabilities. Specifically, they clarify one of the criteria for classifying a liability as non-current. The amendments are not expected to significantly impact the financial statements. The amendments are effective for annual reporting periods beginning on or after 1 January 2023. Earlier application is permitted.

Hausmann Rech Unit Trust Scheme

Accounting policies

1.14 New and amended standards and interpretations (continued)

Not yet mandatorily effective but early application allowed for the year ended 31 December 2021 (continued)

- **Amendments to IFRS 3 - Reference to the Conceptual Framework**

The amendments add an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date. At the same time, the amendments add a new paragraph to IFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date. The amendments are not expected to significantly impact the financial statements. The amendments are effective for annual reporting periods beginning on or after 1 January 2023. Earlier application is permitted.

3. Fair value of financial instruments

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments using: quoted market prices in active market for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When the fair values of listed equities and debt securities are based on quoted market prices or binding dealer prices (bid prices for long positions and ask prices for short positions), without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy.

When financial instruments are not measured at quoted prices in an active market, they are valued using observable inputs, such as recently executed transaction prices in securities of the issuer or comparable issuers and yield curves. Adjustments are made to the valuations when necessary to recognise differences in the instruments' terms. To the extent that these inputs are observable, the Fund classifies the fair value of those investments as Level 2.

Hausmann Rech Global Equity Multi Strategy Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

3. Fair value of financial instruments (continued)

Financial instruments not measured at fair value

The carrying amount of the following financial instruments not measured at fair value approximate their fair value due to their short term nature.

- Cash and cash equivalents.
- Net assets attributable to unit holders.

4. Income equalisation

Income equalisation on issue of units	(20 140)	(25 710)
Income equalisation on redemption of units	22 184	26 568
Net income for the year	2 044	858

Income equalisation is accrued income / (expense) included in the price of units created and redeemed by the Fund during the accounting period. The subscription price of the units is deemed to include a deemed income payment calculated by reference to the accrued income of the units and the first distribution in respect of any unit will include a payment of capital usually equal to the amount of such income. The redemption price of each unit will also include a payment in respect of the accrued income of the unit up to the date of the redemption.

5. Issue and redemption of units during the year

Units created during the year	2 272 753	4 435 127
Income equalisation adjustment (Note 4)	(20 140)	(25 710)
Proceeds from issue of units	2 252 613	4 409 417
Units redeemed during the year	(3 029 391)	(4 291 424)
Income equalisation adjustment (Note 4)	22 184	26 568
Payment on redemption of units	(3 007 207)	(4 264 856)

6. Redeemable participating units

The Fund's capital is represented by these redeemable participating units. Quantitative information about the Fund's capital is provided in the Statement of changes in net assets attributable to unit holders.

Each unit issued confers upon the unit holder an equal interest in the Fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Fund. Unit holders have various rights under the Fund's Trust Deed, including the right to:

- have their unit redeemed at a proportionate unit price based on the Fund's net asset value per unit on the redemption date,
- receive income distributions, and

Hausmann Rech Global Equity Multi Strategy Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

6. Redeemable participating units (continued)

- participate in the termination and winding up of the Fund.

The rights, obligations and restrictions attached to each unit are identical in all respects.

For the purpose of issue and redemption of units, the net assets attributable to unit holders are calculated in accordance with the Fund's Trust Deed.

7. Capital management

As a result of the ability to issue and redeem units, the capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund. The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue or redemption of redeemable units beyond those included in the Fund's trust deed.

The Fund's objectives for managing capital are:

- to invest the capital investments meeting the description, risk exposure and expected return indicated in its Trust Deed,
- to achieve consistent returns while safeguarding capital by investing in a diversified portfolio, by participating in other capital markets and by using various investment strategies, and
- to maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise.

Refer to Note 9 , Financial risk management objectives and policies, for the policies and processes applied by the Fund in managing its capital.

8. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the party in making financial or operational decisions.

Relationship - Trustee

Ocorian Corporate Services (Mauritius) Limited , a company incorporated in Mauritius, provided trustee services to the Fund until its retirement on 20 July 2021. As from that date, Rogers Capital Fund Services Ltd was appointed as trustee to the Fund.

9. Financial risk management objectives and policies

Introduction

The Fund's objective in managing risk is the creation and protection of unit holder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund is exposed to market risk (which include interest rate risk, currency risk and price risk), liquidity risk and credit risk arising from the financial instruments it holds.

Risk management structure

The Fund's Investment Manager is responsible for identifying and controlling risks. The directors of the management company are ultimately responsible for the overall risk management of the Fund.

Risk measurement and reporting system

The Fund's risks are measured using a method that reflects both the expected loss likely to arise in normal circumstances and unexpected losses that are estimates of the ultimate actual loss, based on statistical models. The models make use of the probabilities derived from historical experience, adjusted to reflect the economic environment.

Monitoring and controlling risks are primarily set up based on limits established by the Board of the management company. These limits reflect the business strategy, including the risk that the Fund is willing to accept and the market environment of the Fund. In addition, the Fund monitors and measures the overall risk in relation to the aggregate risk exposure across all risk types and activities.

Risk mitigation

The Fund has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy.

Excessive risk concentration

Concentration of risk indicates the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or that have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of liquidity risk may arise from the repayment terms of financial liabilities or reliance on a particular market to realise liquid assets.

In order to avoid excessive concentrations of risk, the Fund's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. The Investment Manager is instructed to reduce exposure to manage excessive risk concentrations when they arise.

9. Financial risk management objectives and policies (continued)

Market risk

Market risk is the risk that changes in the market prices, such as interest rates, equity prices and foreign exchange rates will affect the Fund's income or the fair value of its holdings of financial instruments.

The Fund's strategy for the management of market risk is driven by the Fund's investment objective. The investment objective of the Fund is to enhance returns and control risks. The Fund's market risk is managed on a daily basis by the investment manager in accordance with policies and procedures put in place. Details of the Fund's investment portfolio at the reporting date are disclosed in Note 11.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rate will affect future cash flows or the fair values of financial instruments.

The Fund is not exposed to interest rate risk.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Consequently, the Fund is exposed to risks that the exchange rate of its currency, relative to other currencies, may change in a manner that has an adverse effect on the fair value or future cash flows of the portion of the Fund's assets and liabilities denominated in currencies other than USD.

The Fund invests in securities and other investments that are denominated in currencies other than US dollars.

The following information presents the sensitivity of the Fund to an increase or decrease in the respective currencies it is exposed to. The sensitivity rate is the rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated amounts and adjusts their translation at the reporting date.

Assets	Change in currency rate (%)	Effect of the change in net assets attributable to unit holders	
GBP	10	105 939	31 832
Eur	10	457 414	344 190

Price risk

Price risk is the risk of unfavourable changes in the fair values of equities and Fund value as a result of changes in the levels of equity indices and the value of individual securities and fund prices.

Price risk is managed by the Investment Manager by diversifying the portfolio as set out by the Trust Deed.

Hausmann Rech Global Equity Multi Strategy Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

9. Financial risk management objectives and policies (continued)

Price risk (continued)

Considering the reasonably possible increase of 10% in security indices and individual security and fund prices, the effect on the Fund's net assets attributable to unit holders is as follows:

Effect of 10% change in equity price	2 854 481	2 704 450
--------------------------------------	------------------	-----------

A weakening of equity prices would result in an equal but opposite effect to the amounts shown above.

Concentration of equity price risk

The following table contains an analysis of the Fund's concentration of equity price risk by geographical distribution, based on counterparties' place of primary listing or place of domicile, if not listed.

	% of equity securities	
USA	75.34	81.46
Ireland	24.66	18.54
	100.00	100.00

Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund is exposed to cash redemptions of its redeemable units on a regular basis. Units are redeemable at the holders' option, based on the Fund's Net Asset Value (NAV) per unit at the time of the redemption, calculated in accordance with the Fund's Trust Deed.

The Fund manages its obligation to repurchase the units when required to do so and its overall liquidity risk by:

- allowing for the redemptions, payments to be made within 7 days of the redemption instructions being received,
- searching for new investors,
- withdrawal of cash deposits,
- disposal of highly liquid assets, and
- disposal of other assets.

It is the Fund's policy that the Investment Manager monitors the Fund's liquidity position on a daily basis and that the directors of the management company review it on a quarterly basis.

The following table summarises the maturity profile of the Fund's financial liabilities based on the contractual undiscounted cash flows.

For financial liabilities, the maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Fund is required to pay.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Fund by failing to discharge an obligation.

The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within financing relationships and other transactions.

It is the Fund's policy to enter into financial instruments with reputable counterparties.

The Investment Manager closely monitors the creditworthiness of the Fund's counterparties (for example, brokers, custodians, managers and banks) by reviewing their credit ratings, financial statements and press releases on a regular basis.

2020

9. Financial risk management objectives and policies (continued)

Credit risk (continued)

The following table contains an analysis of the Fund's maximum exposure to credit risks, which are the instruments' carrying amounts in the financial statements.

Financial instruments

Dividend receivable	19 109	3 762
Cash and cash equivalents	2 213 647	1 254 378
Total credit risk exposure	2 232 756	1 258 140

The above financial assets are subject to the expected credit loss model and no impairment has been identified for the year under review. Cash and cash equivalents are held with reputable financial institutions.

Fair value

The fair values of the Fund's financial assets and liabilities approximate their carrying amounts.

10. Financial assets and liabilities by category

The following table analyses the carrying amounts of the financial assets and financial liabilities by category as defined in IFRS 9.

Financial assets at fair value through profit or loss

Held for trading	28 544 806	27 044 498

Figures in US Dollar

2021

2020

12. COVID - 19

Following the ongoing spread of the COVID-19 virus, the world and its business environment are still struggling with meaningful direct and indirect effects of the pandemic. As at the date of this report, it is not possible to reliably estimate the financial effect (if any) of the virus on the Fund's operations. The Board of Directors of the CIS Manager will continue to monitor the impact COVID-19 has on them and reflect the consequences as appropriate in the accounting and reporting. Business will continue and in the medium term, we anticipate business returning to normal.

13. Reconciliation of Net Asset Value per unit

Published price (calculated in accordance with redemption requirements)	1.39	1.24
Net asset value as per IFRS	1.39	1.24

14. Events after the reporting period

In the beginning of March 2022, Russia has invaded Ukraine leading to a great turmoil, impacting the political and financial environment worldwide. The directors of the CIS Manager are monitoring the possible impact that the war has on the performance of the Fund and will reflect the consequences as appropriate in the financial statements.

There are no other significant events that have occurred in respect of the Fund and the management company, subsequent to the year end, that may be relevant to the accuracy of these financial statements.

Unrealised (loss) / gain from financial assets at fair value through profit or loss	(650 163)	453 554
Closing balance	8 590 618	9 817 660

Net (loss) /gain from financial assets at fair value through profit or loss is analysed as follows:

Realised	293 147	389 091
Unrealised	(650 163)	453 554
	(357 016)	842 645

Refer to Note 3, Fair value of financial instruments, for details of the financial assets and Note 11 , Analysis of total assets, for terms and conditions of the above securities.

2. Cash and cash equivalents

Cash and cash equivalents consist of :

Bank balances and liquid investments	1 416 571	164 742
Analysed as:		
Money market investments	580 583	150 667
Cash at bank	835 988	14 075
	1 416 571	164 742

Refer to Note 11, Analysis of total assets, for further details.

3. Fair value of financial instruments

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments using: quoted market prices in active market for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Hausmann Rech Global Fixed Income Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

3. Fair value of financial instruments (continued)

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When the fair values of listed equities and debt securities are based on quoted market prices or binding dealer prices (bid prices for long positions and ask prices for short positions), without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy.

When financial instruments are not measured at quoted prices in an active market, they are valued using observable inputs, such as recently executed transaction prices in securities of the issuer or comparable issuers and yield curves. Adjustments are made to the valuations when necessary to recognise differences in the instruments' terms. To the extent that these inputs are observable, the Fund classifies the fair value of those investments as Level 2.

Financial instruments not measured at fair value

The carrying amount of the following financial instruments not measured at fair value approximate their fair value due to their short term nature.

- Cash and cash equivalents.
- Net assets attributable to unit holders.

Hausmann Rech Global Fixed Income Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

4. Income equalisation

Income equalisation on issue of units	(69 172)	(32 229)
Income equalisation on redemption of units	50 535	118 773
Net (expense) / income for the year	<u>(18 637)</u>	<u>86 544</u>

Income equalisation is accrued income / (expense) included in the price of units created and redeemed by the Fund during the accounting period. The subscription price of the units is deemed to include a deemed income payment calculated by reference to the accrued income of the units and the first distribution in respect of any unit will include a payment of capital usually equal to the amount of such income. The redemption price of each unit will also include a payment in respect of the accrued income of the unit up to the date of the redemption.

5. Issue and redemption of units during the year

Units created during the year	1 649 007	882 031
Income equalisation adjustment (Note 4)	(69 172)	(32 229)
Proceeds from issue of units	<u>1 579 835</u>	<u>849 802</u>
Units redeemed during the year	(1 164 714)	(3 389 576)
Income equalisation adjustment (Note 4)	50 535	118 773
Payment on redemption of units	<u>(1 114 179)</u>	<u>(3 270 803)</u>

6. Redeemable participating units

The Fund's capital is represented by these redeemable participating units. Quantitative information about the Fund's capital is provided in the Statement of changes in net assets attributable to unit holders.

Each unit issued confers upon the unit holder an equal interest in the Fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Fund. Unit holders have various rights under the Fund's Trust Deed, including the right to:

- have their unit redeemed at a proportionate unit price based on the Fund's net asset value per unit on the redemption date,
- receive income distributions, and
- participate in the termination and winding up of the Fund.

The rights, obligations and restrictions attached to each unit are identical in all respects.

For the purpose of issue and redemption of units, the net assets attributable to unit holders are calculated in accordance with the Fund's Trust Deed.

7. Capital management

As a result of the ability to issue and redeem units, the capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund. The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue or redemption of redeemable units beyond those included in the Fund's constitution.

The Fund's objectives for managing capital are:

- to invest the capital investments meeting the description, risk exposure and expected return indicated in its Trust Deed,
- to achieve consistent returns while safeguarding capital by investing in a diversified portfolio, by participating in other capital markets and by using various investment strategies, and
- to maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise.

Refer to Note 9 , Financial risk management objectives and policies, for the policies and processes applied by the Fund in managing its capital.

8. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the party in making financial or operational decisions.

Relationship - Trustee and custodian fees

Ocorian Corporate Services (Mauritius) Limited, a company incorporated in Mauritius, provided trustee services to the Fund until 20 July 2021. As from that date, Rogers Capital Fund Services Ltd has been appointed as new trustee to the Fund.

Trustee fees payable	7 781	1 320

9. Financial risk management objectives and policies

Introduction

The Fund's objective in managing risk is the creation and protection of unit holder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund is exposed to market risk (which include interest rate risk, currency risk and price risk), liquidity risk and credit risk arising from the financial instruments it holds.

Risk management structure

The Fund's Investment Manager is responsible for identifying and controlling risks. The directors of the management company are ultimately responsible for the overall risk management of the Fund.

Hausmann Rech Global Fixed Income Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

9. Financial risk management objectives and policies (continued)

Risk measurement and reporting system

The Fund's risks are measured using a method that reflects both the expected loss likely to arise in normal circumstances and unexpected losses that are estimates of the ultimate actual loss, based on statistical models. The models make use of the probabilities derived from historical experience, adjusted to reflect the economic environment.

Monitoring and controlling risks are primarily set up based on limits established by the Board of the management company. These limits reflect the business strategy, including the risk that the Fund is willing to accept and the market environment of the Fund. In addition, the Fund monitors and measures the overall risk in relation to the aggregate risk exposure across all risk types and activities.

Risk mitigation

The Fund has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy.

Excessive risk concentration

Concentration of risk indicates the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or that have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of liquidity risk may arise from the repayment terms of financial liabilities or reliance on a particular market to realise liquid assets.

In order to avoid excessive concentrations of risk, the Fund's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. The Investment Manager is instructed to reduce exposure to manage excessive risk concentrations when they arise.

Market risk

Market risk is the risk that changes in the market prices, such as interest rates, equity prices and foreign exchange rates will affect the Fund's income or the fair value of its holdings of financial instruments.

The Fund's strategy for the management of market risk is driven by the Fund's investment objective. The investment objective of the Fund is to enhance returns and control risks. The Fund's market risk is managed on a daily basis by the investment manager in accordance with policies and procedures put in place. Details of the Fund's investment portfolio at the reporting date are disclosed in Note 11.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rate will affect future cash flows or the fair values of financial instruments. The Fund is not exposed to interest rate risk.

Hausmann Rech Global Fixed Income Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

9. Financial risk management objectives and policies (continued)

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Consequently, the Fund is exposed to risks that the exchange rate of its currency, relative to other currencies, may change in a manner that has an adverse effect on the fair value or future cash flows of the portion of the Fund's assets and liabilities denominated in currencies other than the US Dollar.

The Fund invests in securities and other investments that are denominated in currencies other than US dollars.

The following information presents the sensitivity of the Fund to an increase or decrease in the respective currencies it is exposed to. The sensitivity rate is the rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonable possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated amounts and adjusts their translation at the reporting date.

Currency	Change in currency rate(%)	Effect of the change in net assets attributable to unit holders	
Assets			
GBP	<u>10</u>	<u>24 946</u>	<u>20 818</u>

Price risk

Price risk is the risk of unfavourable changes in the fair values of equities and Fund value as a result of changes in the levels of equity indices and the value of individual securities and fund prices.

Price risk is managed by the Investment Manager by diversifying the portfolio as set out by the Trust Deed.

Considering the reasonably possible increase of 10% in security indices and individual security and fund prices, the effect on the Fund's net assets attributable to unit holders is as follows:

Effect of 10% change in equity price	<u>859 062</u>	<u>981 766</u>
--------------------------------------	----------------	----------------

A weakening of equity prices would result in an equal but opposite effect to the amounts shown above.

Concentration of equity price risk

The following table contains an analysis of the Fund's concentration of equity price risk by geographical distribution, based on counterparties' place of primary listing or place of domicile, if not listed.

	% of equity securities	
Republic of Ireland	47.74	44.94
Republic of Mauritius	30.46	33.24
USA	21.80	21.82
	<u>100.00</u>	<u>100.00</u>

9. Financial risk management objectives and policies (continued)

Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund is exposed to cash redemptions of its redeemable units on a regular basis. Units are redeemable at the holders' option, based on the Fund's Net Asset Value (NAV) per unit at the time of the redemption, calculated in accordance with the Fund's Trust Deed.

The Fund manages its obligation to repurchase the units when required to do so and its overall liquidity risk by:

- allowing for the redemptions, payments to be made within 7 days of the redemption instructions being received,
- searching for new investors,
- withdrawal of cash deposits,
- disposal of highly liquid assets, and
- disposal of other assets.

It is the Fund's policy that the Investment Manager monitors the Fund's liquidity position on a daily basis and that the directors of the management company review it on a quarterly basis.

The following table summarises the maturity profile of the Fund's financial liabilities based on the contractual undiscounted cash flows.

For financial liabilities, the maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Fund is required to pay.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Fund by failing to discharge an obligation.

The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within financing relationships and other transactions.

It is the Fund's policy to enter into financial instruments with reputable counterparties.

The Investment Manager closely monitors the creditworthiness of the Fund's counterparties (for example, brokers, custodians, managers and banks) by reviewing their credit ratings, financial statements and press releases on a regular basis.

The following table contains an analysis of the Fund's maximum exposure to credit risks, which are the instruments' carrying amounts in the financial statements.

Financial instruments

Other receivable	-	93
Cash and cash equivalents	<u>1 416 571</u>	164 742
Total credit risk exposure	<u>1 416 571</u>	<u>164 835</u>

The above financial assets are subject to the expected credit loss model and no impairment has been identified for the year under review. Cash and cash equivalents are held with reputable financial institutions.

Fair value

The fair values of the Fund's financial assets and liabilities approximate their carrying amounts.

13. Events after the reporting period

In the beginning of March 2022, Russia has invaded Ukraine leading to a great turmoil, impacting the political and financial environment worldwide. The directors of the CIS Manager are monitoring the possible impact that the war has on the performance of the Fund and will reflect the consequences as appropriate in the financial statements.

There are no other significant events that have occurred in respect of the Fund and the management company, subsequent to the year end, that may be relevant to the accuracy of these financial statements.

Hausmann Rech Global Managed Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

1. Financial assets at fair value through profit or loss

Financial assets held for trading

Unlisted securities	14 087 364	14 108 069
Opening balance	14 108 069	16 430 770
Additions	230 000	1 319 372
Disposals	(1 008 681)	(5 291 538)
Unrealised gain from financial assets at fair value through profit or loss	757 976	1 649 465
Closing balance	14 087 364	14 108 069

Net gain from financial assets at fair value through profit or loss is analysed as follows:

Realised	329 065	39 536
Unrealised	757 976	1 649 465
	1 087 041	1 689 001

Refer to Note 3, Fair value of financial instruments, for details of the financial assets and Note 11 , Analysis of total assets, for terms and conditions of the above securities.

2. Cash and cash equivalents

Cash and cash equivalents consist of :

Bank balances and liquid investments	1 921 481	1 747 521
Analysed as:		
Money market investments	1 906 548	1 698 788
Cash at bank	14 933	48 733

Refer to Note 11, Analysis of total assets, for further details.

3. Fair value of financial instruments

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments using: quoted market prices in active market for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Hausmann Rech Global Managed Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

3. Fair value of financial instruments (continued)

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2021				
Hausmann Rech Global Fixed Income Fund	-	3 061 601	-	3 061 601
Hausman Rech Global Equity Multi Strategy Fund	-	11 025 763	-	11 025 763
	-	14 087 364	-	14 087 364
2020				
Hausmann Rech Global Fixed Income Fund	-	3 253 807	-	3 253 807
Hausmann Rech Global Equity Multi Strategy Fund	-	10 854 262	-	10 854 262
	-	14 108 069	-	14 108 069

When the fair values of listed equities and debt securities are based on quoted market prices or binding dealer prices (bid prices for long positions and ask prices for short positions), without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy.

When financial instruments are not measured at quoted prices in an active market, they are valued using observable inputs, such as recently executed transaction prices in securities of the issuer or comparable issuers and yield curves. Adjustments are made to the valuations when necessary to recognise differences in the instruments' terms. To the extent that these inputs are observable, the Fund classifies the fair value of those investments as Level 2.

The carrying amount of the following financial instruments not measured at fair value approximate their fair value due to their short term nature.

- Cash and cash equivalents.
- Net assets attributable to unit holders.

4. Income equalisation

Income equalisation on issue of units	(26 190)	(4 693)
Income equalisation on redemption of units	31 316	42 386
Net income for the year	5 126	37 693

Income equalisation is accrued income / (expense) included in the price of units created and redeemed by the Fund during the accounting period. The subscription price of the units is deemed to include a deemed income payment calculated by reference to the accrued income of the units and the first distribution in respect of any unit will include a payment of capital usually equal to the amount of such income. The redemption price of each unit will also include a payment in respect of the accrued income of the unit up to the date of the redemption.

5. Issue and redemption of units during the year

Units created during the year	4 822 530	675 313
Income equalisation adjustment (Note 4)	(26 190)	(4 693)
Proceeds from issue of units	4 796 340	670 620

Hausmann Rech Global Managed Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

5. Issue and redemption of units during the year (continued)

Units redeemed during the year	(5 770 542)	(5 128 006)
Income equalisation adjustment (Note 4)	31 316	42 386
Payment on redemption of units	(5 739 226)	(5 085 620)

6. Redeemable participating units

The Fund's capital is represented by these redeemable participating units. Quantitative information about the Fund's capital is provided in the Statement of changes in net assets attributable to unit holders.

Each unit issued confers upon the unit holder an equal interest in the Fund, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Fund. Unit holders have various rights under the Fund's Trust Deed, including the right to:

- have their unit redeemed at a proportionate unit price based on the Fund's net asset value per unit on the redemption date,
- receive income distributions, and
- participate in the termination and winding up of the Fund.

The rights, obligations and restrictions attached to each unit are identical in all respects.

For the purpose of issue and redemption of units, the net assets attributable to unit holders are calculated in accordance with the Fund's Trust Deed.

7. Capital management

As a result of the ability to issue and redeem units, the capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund. The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue or redemption of redeemable units beyond those included in the Fund's trust deed.

The Fund's objectives for managing capital are:

- to invest the capital investments meeting the description, risk exposure and expected return indicated in its Trust Deed,
- to achieve consistent returns while safeguarding capital by investing in a diversified portfolio, by participating in other capital markets and by using various investment strategies, and
- to maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise.

Refer to Note 9 , Financial risk management objectives and policies, for the policies and processes applied by the Fund in managing its capital.

8. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the party in making financial or operational decisions.

9. Financial risk management objectives and policies

Introduction

The Fund's objective in managing risk is the creation and protection of unit holder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund is exposed to market risk (which include interest rate risk, currency risk and price risk), liquidity risk and credit risk arising from the financial instruments it holds.

Risk management structure

The Fund's Investment Manager is responsible for identifying and controlling risks. The directors of the management company are ultimately responsible for the overall risk management of the Fund.

Risk measurement and reporting system

The Fund's risks are measured using a method that reflects both the expected loss likely to arise in normal circumstances and unexpected losses that are estimates of the ultimate actual loss, based on statistical models. The models make use of the probabilities derived from historical experience, adjusted to reflect the economic environment.

Monitoring and controlling risks are primarily set up based on limits established by the Board of the management company. These limits reflect the business strategy, including the risk that the Fund is willing to accept and the market environment of the Fund. In addition, the Fund monitors and measures the overall risk in relation to the aggregate risk exposure across all risk types and activities.

Risk mitigation

The Fund has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy.

Hausmann Rech Global Managed Fund

Notes to the financial statements for the year ended 31 December 2021

Figures in US Dollar

2021

2020

9. Financial risk management objectives and policies (continued)

Excessive risk concentration

Concentration of risk indicates the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or that have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of liquidity risk may arise from the repayment terms of financial liabilities or reliance on a particular market to realise liquid assets.

In order to avoid excessive concentrations of risk, the Fund's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. The Investment Manager is instructed to reduce exposure to manage excessive risk concentrations when they arise.

Market risk

Market risk is the risk that changes in the market prices, such as interest rates, equity prices and foreign exchange rates will affect the Fund's income or the fair value of its holdings of financial instruments.

The Fund's strategy for the management of market risk is driven by the Fund's investment objective. The investment objective of the Fund is to enhance returns and control risks. The Fund's market risk is managed on a daily basis by the investment manager in accordance with policies and procedures put in place. Details of the Fund's investment portfolio at the reporting date are disclosed in Note 11.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rate will affect future cash flows or the fair values of financial instruments.

The Fund is not exposed to interest rate risk.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Fund is not exposed to currency risk since its assets and liabilities are denominated in US Dollars.

Price risk

Price risk is the risk of unfavourable changes in the fair values of equities and Fund value as a result of changes in the levels of equity indices and the value of individual securities and fund prices.

Price risk is managed by the Investment Manager by diversifying the portfolio as set out by the Trust Deed.

Considering the reasonably possible increase of 10% in security indices and individual security and fund prices, the effect on the Fund's net assets attributable to unit holders is as follows:

Effect of 10% change in equity price	1 408 736	1 410 807
--------------------------------------	------------------	------------------

A weakening of equity prices would result in an equal but opposite effect to the amounts shown above.

9. Financial risk management objectives and policies (continued)

Price risk (continued)

Concentration of equity price risk

The following table contains an analysis of the Fund's concentration of equity price risk by geographical distribution, based on counterparties' place of primary listing or place of domicile, if not listed.

	% of equity securities	
	2021	2020
Mauritius	100.00	100.00

Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund is exposed to cash redemptions of its redeemable units on a regular basis. Units are redeemable at the holders' option, based on the Fund's Net Asset Value (NAV) per unit at the time of the redemption, calculated in accordance with the Fund's Trust Deed.

The Fund manages its obligation to repurchase the units when required to do so and its overall liquidity risk by:

- allowing for the redemptions, payments to be made within 7 days of the redemption instructions being received,
- searching for new investors,
- withdrawal of cash deposits,
- disposal of highly liquid assets, and
- disposal of other assets.

It is the Fund's policy that the Investment Manager monitors the Fund's liquidity position on a daily basis and that the directors of the management company review it on a quarterly basis.

The following table summarises the maturity profile of the Fund's financial liabilities based on the contractual undiscounted cash flows.

For financial liabilities, the maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Fund is required to pay.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Fund by failing to discharge an obligation.

The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within financing relationships and other transactions.

It is the Fund's policy to enter into financial instruments with reputable counterparties.

The Investment Manager closely monitors the creditworthiness of the Fund's counterparties (for example, brokers, custodians, managers and banks) by reviewing their credit ratings, financial statements and press releases on a regular basis.

The following table contains an analysis of the Fund's maximum exposure to credit risks, which are the instruments' carrying amounts in the financial statements.

Financial instruments

Other receivables	3 867	3 867
Interest receivable	1 220	1 727
Cash and cash equivalents	1 921 481	1 747 521
Total credit risk exposure	1 926 568	1 753 115

The above financial assets are subject to the expected credit loss model and no impairment has been identified for the year under review. Cash and cash equivalents are held with reputable financial institutions.

Fair value

The fair values of the Fund's financial assets and liabilities approximate their carrying amounts.

12. COVID - 19

Following the ongoing spread of the COVID-19 virus, the world and its business environment are still struggling with meaningful direct and indirect effects of the pandemic. As at the date of this report, it is not possible to reliably estimate the financial effect (if any) of the virus on the Fund's operations. The Board of Directors of the CIS Manager will continue to monitor the impact COVID-19 has on them and reflect the consequences as appropriate in the accounting and reporting. Business will continue and in the medium term, we anticipate business returning to normal.

13. Reconciliation of Net Asset Value per unit

Published price (calculated in accordance with redemption requirements)	1.26	1.18
Net asset value as per IFRS	<u>1.26</u>	<u>1.18</u>

14. Events after the reporting period

In the beginning of March 2022, Russia has invaded Ukraine leading to a great turmoil, impacting the political and financial environment worldwide. The directors of the CIS Manager are monitoring the possible impact that the war has on the performance of the Fund and will reflect the consequences as appropriate in the financial statements.

There are no other significant events that have occurred in respect of the Fund and the management company, subsequent to the year end, that may be relevant to the accuracy of these financial statements.
